Penso Power co-founder, Andrew McAleavey, joins Luminous Energy

Renewable Energy Developer Expands Team to Deliver Ambitious Growth Plan

Thursday 30 November 2023, Corsham, Wiltshire, UK - Luminous Energy, the established UK-based renewable energy and battery storage developer, has appointed Andrew McAleavey as Chief Financial Officer.

McAleavey joins Luminous from Penso Power, a company he co-founded in 2017. A qualified management accountant, he brings with him 10 years of experience in the renewable energy sector, and over 25 years of industry experience. Says Andrew, 'I am delighted to join the Luminous team with its impressive track record, and I'm looking forward to supporting the team as it grows in its existing markets and expands into new ones'.

Luminous Energy, now in its 10th year of operation and as part of its business plan, is transitioning from developer to an IPP. Also, as part of its business plan, Luminous is exploring new markets beyond the UK, US, Chile and Australia where it already has a presence. As markets continue to decarbonise and deregulate, Luminous can take its experience and UK success to other markets.

Jolyon Orchard, Chief Executive Officer, adds 'We have ambitious growth targets which can only be achieved by building a high calibre team, so we welcome Andrew with his strong track record of identifying new market opportunities and delivering high quality renewable energy projects'.
